

Professional Administration Solutions

Simplifying MSA Administration

The intricacies of Medicare and managing a Medicare Set Aside (MSA) can be confusing, time consuming, and frustrating. We simplify this complex process, with three main goals in mind:

- Providing cost-containment programs to help preserve MSA funds
- Ensuring injury-related Medicare-covered expenses are paid promptly and in accordance with CMS requirements
- Never directing care or requiring plaintiffs/claimants to receive treatment from specific providers

Our Professional Administration solutions are designed to ensure fully Medicare compliant MSA administration, and provide personal attention to the future medical needs of the injured party while preserving and extending the life of MSA funds.

What Sets Our Program Apart

Maximum Discounts to Maximize MSA

Our networks and cost containment solutions can provide discounts of up to 55% off Average Wholesale Pricing (AWP) on medications.

Preservation of MSA Funds

Highly attentive administration helps confirm that funds are preserved and used only for related medical expenses covered by Medicare, protecting against early depletion.

Fully Compliant MSA Accounting & Reporting

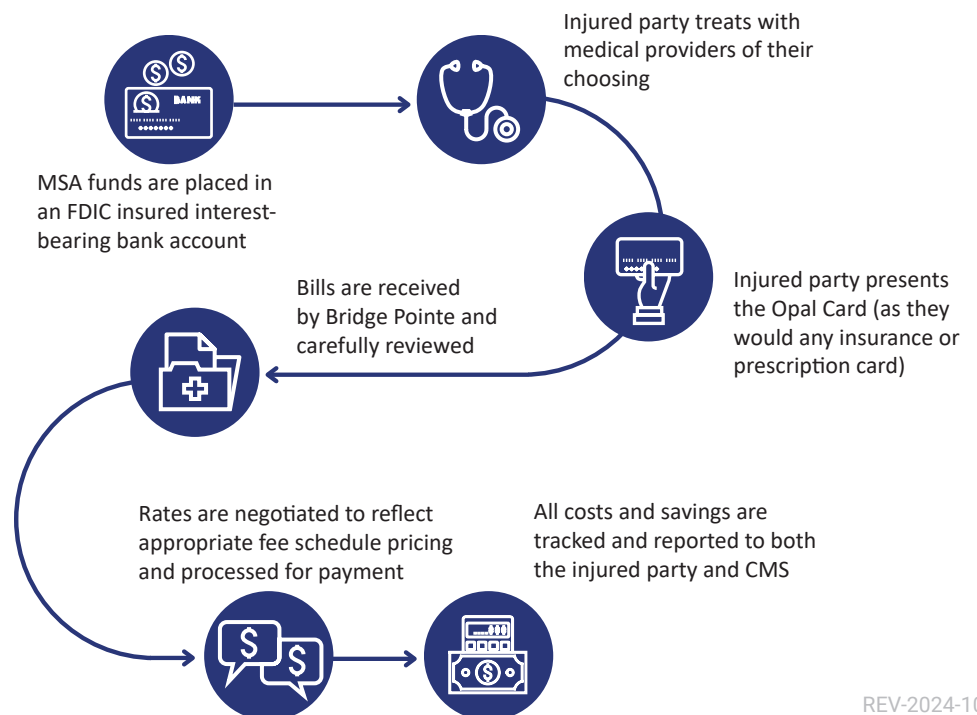

We track all treatments and costs for use in the required annual report submitted to CMS on behalf of the injured party. We also submit all accounting reports to CMS.

Dedicated Team

Our US-based teammates (experienced in accounting, bill processing, and coding) are available to assist injured parties with any questions or concerns.

Professional Administration Process

We can be available by phone at the time of mediation* to assist and provide support and help put claimants at ease.

*Five business days notice is needed.
